

EP TECHNOLOGY 5.0 60mm crimping iron

Creates a defined crimped pattern for added volume
Gives style and long-lasting texture in the hair

EP TECHNOLOGY 5.0

This is a very technical process similar to what is done in jewelry. Its achievement lasts a long time as this is about getting a layer of micrometric metallic particles by electroplating.

- ▶ no friction for even more smoothness
- ▶ no chemical agents for better resistance to high-heat
- ▶ even heat distribution all through the plates

For plates:

1. 3 x harder & longer lasting*
2. 3 x smoother
3. hard-wearing to chemicals
4. lasting & perfect result
5. hair respected & sublimated

For perfect, long-lasting results:

- preserves the integrity of the hair
- hair is soft and shiny
- even heat distribution makes faster styling results that last longer

For intensive professional use:

- perfect resistance to wear-out, chemical products and high-heat
- even smoother plates
- time and energy savings

Perfect results

Even heat distribution all through the plates.

Universal device

The 60mm wide plates allow use on any length of hair, from medium-length to long one whereas the temperature control lets it to be used on any type of hair from the most fragile to the most difficult one, from the thinnest to the coarsest one.

Features

- EP TECHNOLOGY 60mm plates
- Temperature selector – 5 settings (120°C-140°C-160°C-180°C-200°C)
- Heat-resistant velvet coating
- On/off switch & indicator light
- Professional 2.70m swivel cord
- 125W
