

MIRACURL™ STEAMTECH

Automatic steam curler,
to create glamorous curls
easily and in record time.

◀ BAB2665SBE

Steam technology for enhanced hold and shine.
MiraCurl™ SteamTech creates shiny and long-lasting curls on
any hair types.

Genuine technology

- The DIGITAL technology of the motor makes lighter appliances which feature ultra-low vibration, are silent and have a tremendously longer lifespan against any other styling tools.
- The MiraCurl™ SteamTech features a Ceramic curl chamber for smooth curl creation.

Steam technology

MiraCurl™ SteamTech features an optional steam function. It sets the curl with jets of steam. Steam in hair styling works in much the same way as steam ironing: as the moisture from the steam quickly evaporates because of the heat, the dried curl becomes set.

Steam also offers in-depth beauty action and:

- Extra-smooth curls.
- Extra-shine.

For long-lasting result and perfect curl formation.

MiraCurl™ SteamTech

- creates perfect curls every time with infinite possibilities of styles effortlessly.
- adjusts heat, time and curl type.
- can be used with or without steam.
